Demand the original.

Axle Components | Driveshaft Components | Repair Kits

Only original equipment quality components are guaranteed to meet the same specifications as the parts they replace. AAM components mean performance to the vehicle manufacturer's standards.

Reliable

AAM products are designed for long-term reliability.

Durable

Advanced processes ensure AAM products withstand the high usage demand of all applications.

Quality

AAM products are manufactured to the highest-quality standards that customers demand.

Performance

AAM products are engineered, manufactured and validated to meet OEM specifications and ensure ultimate performance.

TABLE OF CONTENTS

OE Quality Replacement Parts
Designed for Chrysler LLC. Products:

AAM 925 Front Beam Axle - (14 Bolt)	2 – 9
AAM 1050 Rear Axle - (14 Bolt)	10 – 17
AAM 1150 Rear Axle - (14 Bolt)	18 – 21

Safety Information

Warning – Failure to follow these instructions could affect vehicle performance and/or safety and result in personal injury or death.

- **Do not convert or alter American Axle & Manufacturing axles except in accordance with vehicle manufacturer's instructions.**

American Axle & Manufacturing axles are designed to meet OE vehicle manufacturer's design and performance specifications. Improper conversion or alteration of these axles can damage the axles and/or other vehicle systems. Contact the OE manufacturer for specific directions and guidelines.

- **Do not change axle gear ratios on vehicles with anti-lock braking systems except in accordance with the vehicle manufacturer's instructions.**

Vehicles with anti-lock braking systems may utilize sensors and tone rings with the axle housing to ensure the functioning of the anti-lock brakes. Improperly changing the axle ratios may defeat the anti-lock braking system. If changing axle ratios will require changing the location of the tone ring on the ring gear flange to the location of the sensor in the axle housing, contact the OE manufacturer for specific directions and guidelines.

- **Do not reuse or substitute ring gear bolts.**

If you reuse a ring gear bolt or substitute an inferior-quality bolt, the bolt may loosen or back out of its threaded hole, causing severe damage to the axle gears and other components and possibly resulting in a sudden "locking up" of the axle and loss of control of the vehicle. Always use new bolts specifically recommended for the application and install bolts using proper tools and torquing to the proper specifications.

CAUTION – Use of non-American Axle & Manufacturing parts may result in product failure and personal injury.

American Axle & Manufacturing axles are designed for each model vehicle and manufactured and tested for safety and best performance. Replacement parts from other manufacturers may not be made to AAM's rigid quality standards. To be sure you're getting AAM quality, always use genuine AAM parts.

This symbol warns of possible personal injury.

Warranty

AAM warrants its products to be free from defects in workmanship and materials for a period of one (1) year (or such shorter period to be consistent with the period of warranty provided to Company by the manufacturer or seller of the product to Company) from the date of shipment to distributor when such parts are used on vehicles, the specifications of which have been approved by Company's Engineering Department. This limited warranty shall not be applicable when damage was caused by accident, abuse, improper maintenance, repair or improper installation. Company's liability under such warranty shall be limited to, at Company's option, repairing, replacing or giving credit for any products which, upon inspection by Company, are found by Company to have been defective in workmanship or materials. In no event will Company be liable for consequential, indirect, special or incidental damages.

In the event that Company decides to repair or replace any product, distributor will arrange for the delivery of the defective products to the Company's premises. In the event that the product is found by the Company to be defective, the Company shall bear the cost of such delivery.

OTHER THAN WARRANTY OF TITLE, THE AFORESAID WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, UNDER WHATEVER THEORY, AND COMPANY EXPRESSLY DISCLAIMS ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.
